

# How to connect a Chromebook to WiFi at Home

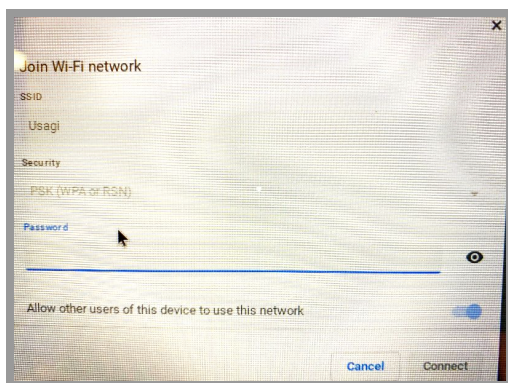

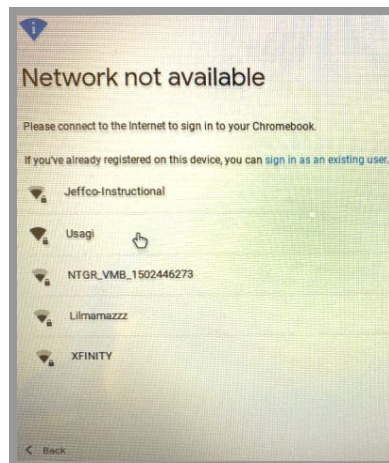

Summary: How to sign into a Chromebook managed by Jefferson County Public Schools with Filtering.

## Jeffco Chromebooks will only work with Jeffco Accounts

**Note:** If you are having issues connecting to your home WiFi please try disconnecting and connecting to the network again, rebooting the device and/or rebooting the router.

When using a Chromebook at home (away from the Jeffco Wireless network) you will first have to connect it to a Wifi network it can pick up. To do this:

- 1) Power on the chromebook. You will see a screen that says **Network not available**. On that screen you will see a list of available wireless networks.
- 2) Click on the network name that you know to be safe.

- 3) If prompted, type password for the network you selected
- 4) Login as usual with your Jeffco Login ID

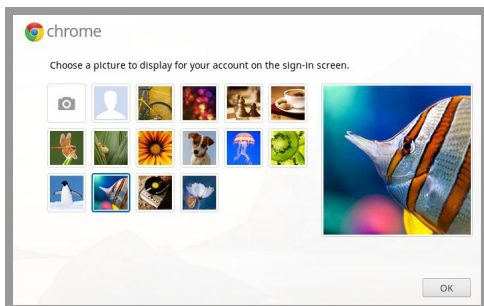

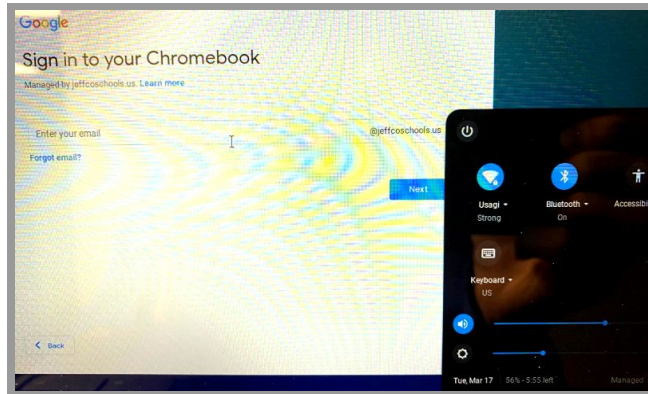

Where prompted for **Enter your email**

Type your **student-number**  
(ie 9994567)

When prompted, type your  
**password**

Click **Sign in**

When logging in for the first time, you may be prompted to select a picture for your account.

Click on a picture to select it and click **OK**.

Your new user profile picture will appear in the status area of the screen.
